
Universal fixing assembly for RopeClimber hoist

FALLPROTEC

March 2020

Description

Fallprotec has developed a fixing assembly allowing the installation of a RopeClimber hoist on its davit systems. This fixing assembly eases the transition from manual rope access to a motorized person lift.

Advantages

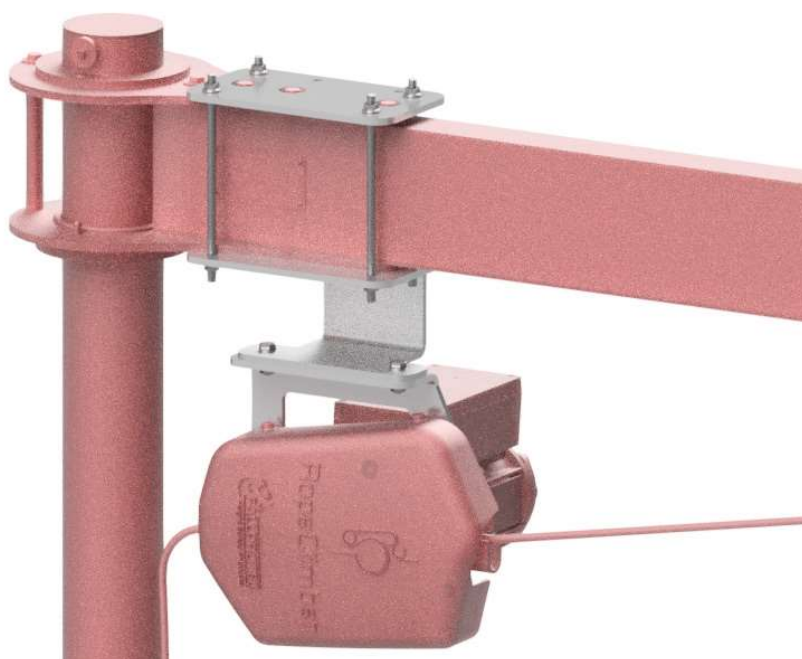

- Can be retrofitted on existing davit arms
- Easy fixation with plate and counter-plate

Technical specifications

Aluminium

Compliant with EN1808:2015
MADE IN EU
