

HL400™-AM ANTIMICROBIAL- PROTECTED DISPENSER

ADDED PROTECTION. AROUND THE CLOCK.

Maintaining clean workspaces is important for every business. Introducing Honeywell's HL400-AM earplug dispenser – with built in antimicrobial properties to protect the dispenser against stains, discoloration and odors caused by mold, mildew and bacteria. This product does not protect users or others against disease-causing organisms.

Enjoy cleaner surfaces from a dispenser with enhanced cleanliness.

FEATURES AND BENEFITS

HL400-AM

BUILT-IN ANTIMICROBIAL PROTECTION

- Turn knob and catch tray treated with a silver ion antimicrobial additive;
- Built-in antimicrobial protection to reduce cleaning costs in the workplace;
- Earplugs sit in the tray, reducing waste and driving cost savings;

EASY TO INSTALL, USE AND REFILL

- Can be wall-mounted or placed on tabletops;
- Fits on existing wall mounts of other dispensers;
- Workers can access earplugs quickly;
- Available with prefilled, recyclable canister – an economical choice;
- Replace the empty canister or refill with a bag of bulk earplugs;

YOUR CHOICE OF HEARING PROTECTION

- Compatible with all Howard Leight™ disposable earplugs: MAX®, MAXLite®, Laser Lite®, FirmFit®, and Xtreme®;
- Provides the right earplugs for every user in every environment;
- Earplugs are available in different sizes, shapes, materials and attenuation levels;
