Product Use

Dispenser of 400 pairs of 303L

Features & Benefits

Feature

Durable plastic design is an economical choice for dispensing earplugs . The HL400 base is able to fit on existing wall mounts of other dispensers, including the Howard Leight LS400, as well as competitor mounts. The universal hole positions match many other dispensers, eliminating the need to drill new holes. The table base can also be mounted to a

horizontal surface to ensure stabilization and prevent movement. • Mounts to wall or stands as table-top dispenser with balanced footing • Twist knob to dispense uncorded earplugs • Catch basin prevents earplugs from falling to the ground • Matrix, Max, Max Lite, Laser Lite and MultiMax bulk bag refills available • Holds 400 pairs of uncorded earplugs POLYURETHANE FOAM Soft foam delivers superior long-wearing comfort and solid performance. SMOOTH, SOIL-RESISTANT SKIN Prevents dirt or other substances from accumulating on skin or entering ear canal.

Benefit

The Bilsom 300 Series earplugs are ideal for workers who need to block out loud noise demand the best protection and comfort available in an earplug. Europe most-used polyurethane earplug, the 300 series earplug, offers superior noise-blocking performance in a single-use earplug.

Storage Information

All earplugs should be stored before and between usages in a way that protects them from dirt, grease, and other contaminants.

Care Instructions

HL400 Lite dispenser with 400 pairs Bilsom 303L - 50129767-001

Disposable earplugs are made of either TPE (Thermoplastic elastomers) or polyurethane foam. Washing and cleaning of disposable earplugs are not recommended. These plugs must be disposed of and replaced after each wearing. Excessive moisture reduces the attenuation and slows down the foam recovery which may lead to improper fit.
